

PROGRAM OVERVIEW

Smile San Bernardino County (Smile SBC) was established to improve the oral health of county residents. The program is funded by the California Department of Public Health, through funds generated from passage of the **California Healthcare Research Tobacco Act of 2016** (Proposition 56).

WHY IS ORAL HEALTH IMPORTANT?

Our teeth help us **chew, digest food, speak clearly and give shape to our face**. When we do not take care of our teeth, we increase our risk of disease such as gum disease which can lead to heart disease or diabetes.

WHO WE ASSIST

- Children, pregnant women and older adults
- Individuals with intellectual and/or developmental disabilities
- Homeless individuals and families
- Rural communities
- Schools and community organizations
- And many more!

Public Health

DID YOU KNOW?

Tooth decay is preventable and yet it is the **most common chronic disease** for children and teens.

About **74 percent of third-grade** and **57 percent of kindergarten** children in the county have had tooth decay.

Approximately **5 percent of third-grade** and **5 percent of kindergarten** children have an urgent condition causing pain and/or infection.

About **28 percent of 3rd-grade** and **27 percent of kindergarten children** have untreated tooth decay.

Students' absences due to dental problems cost California school districts about **\$30 million annually**.

Focus Areas

Access to Oral Health Care

Increase the availability, accessibility and utilization of oral health services across the county

- Support **school-based** and/or school-linked **dental programs** for K-12 students
- Facilitate improvement of dental **referral system** to improve access for children
- Assist with improving **Kindergarten Oral Health Assessment** completion rate to ensure every child is connected with a dentist

Oral Health Education

Empower individuals and communities with information to take action to improve their oral health

- Support **oral health education** for K-12 students
- Develop and disseminate **standardized educational resources**
- Develop a countywide oral health **public awareness campaign**

FOCUS AREAS CONTINUED

Oral Health Workforce

Expand and strengthen the workforce to meet the varied oral health care needs of San Bernardino County

Integration of Services

Empower service providers to improve the overall health of individuals through integrated approaches to care

Coordination of Countywide Efforts

Promote partnerships and collective efforts to optimize resources and achieve sustained improvements for oral health

Measurement and Evaluation

Implement a data collection, analysis and reporting system to support countywide oral health efforts
